Methane Exhauster 5210.4.3

Base Model 5210.4.3 Specifications

Blower Type	Multistage Centrifugal
Blower Inlet Diameter	6"
Blower Outlet Diameter	5"
Maximum Blower Capacity	1300 SCFM
Maximum Suction Pressure	12.8 IN Hg
Maximum Discharge Pressure	11.8 PSIG
Driveline Type	Solid (No Belts)
Driveline Clutch	Yes
Driveline Transmission	Yes
Engine Configuration	V6
Engine Fuel Type	Methane/Natural Gas
Engine Displacement	262 CID [4294 cc]
Maximum Horsepower	105 HP
Maximum RPM	3000 RPM
Fuel Quality Range	30% - 100% Methane
Total Weight	8,200lbs

***The performance listed is based on ideal conditions
Performance will be less under typical applications***
